We are already a little teary-eyed just thinking about the final episode of This Is Us, which airs Tuesday on NBC. Creator Dan Fogelman has taken us on a beautiful, emotional, exhilarating journey following the Pearson family through their tragedies, heartbreaks and triumphs. The multigenerational story was a poignant reminder on the importance of family, acceptance, forgiveness and just plain decency, anchored by parents Jack and Rebecca (Milo Ventimiglia and Mandy Moore) and their all-consuming love for their "Big Three" triplets - Randall (Sterling K. Brown), Kevin (Justin Hartley) and Kate (Chrissy Metz). Their stories took us down paths and conversations we never imagined, and introduced supporting characters (Beth! William! Toby! Nicky! Déjà!) in whom we became equally invested.

"It's not [ending] because we don't have any more story to tell," Fogelman shared. "It's because we exactly planned it to go this way."

Here are a few things we can share about the final episodes.

On Rebecca's "deathbed" fate in the house Kevin built her.

Dan Fogelman: "We're definitely going to spend more time there. ... Typically our flash-forwards

into the future, there's three future areas we've been in. One is we've seen glimpses of Kate's second wedding. We then see in that kind of what we call the 'death house.' And then we also obviously have our late Jack Jr. in the much even deeper future as a young aspiring musician."

On ending the series.

Sterling K. Brown: "To not be able to see [the cast] every day, I'll miss [them]. I'll miss the story that we've had a chance to tell with one another. And I can't wait for 20 years to do an E! True Hollywood Story. It's going to be awesome."

Milo Ventimiglia: "Jack will probably be a part of me for a long time. But at the same time, I get to shave the mustache, shave the beard, get a haircut. I'm looking forward to filming that [last episode]. I think it's going to be one for the books."

On the idea of a follow-up movie.

Justin Hartley: "I am down for a *This Is Us* movie; I love these cats. I would do a trilogy movie, I really would. I would do a movie every year with these guys."

Mandy Moore: "I would be game to do anything that would reunite me with everybody here."

"STRANGER THINGS" RETURNS FOR FINAL SEASON

Picking up on an increasingly popular trend, the fourth (and penultimate) season of *Stranger Things* is broken up into two halves, the first beginning Friday and the second continuing on July 1. After a layoff of nearly three years since Season 3, Season 4 picks up six months after the Battle of Starcourt,

which brought terror and destruction to Hawkins, Indiana. Struggling with the aftermath, the young heroes are separated for the first time while trying to handle the difficulties of high school. During these vulnerable days, a new and terrifying supernatural threat surfaces, presenting a gruesome mystery that, if solved, might finally put an end to the horrors of the Upside Down (but probably not until the fifth and final season). The primary cast all returns, including David Harbour, Winona Ryder, Millie Bobby Brown, Finn Wolfhard, Caleb McLaughlin, Gaten Matarazzo, Natalia Dyer and Joe Keery.

America's Funniest Home Videos

7 pm on ABC

Season Finale

Mickey and Minnie Mouse will appear as special guests to help host Alfonso Ribeiro award the grand prize to the best video of this season. Since Walt Disney World Resort is currently marking its 50th anniversary, the winner and nine guests will get a six-night vacation at the Florida resort.

American Idol

8 pm on ABC

Season Finale

As the competition wraps up its 20th season overall (and its fifth on ABC), it's been marked by some aspects of years past, such as contestants leaving early. Lionel Richie, Luke Bryan and Katy Perry cast their final votes on the remaining contenders, and per *Idol* finale tradition, expect other big-name stars to appear.

The Simpsons

8 pm on FOX

Season Finale

After Bart (voice of Nancy Cartwright) humiliates him in church yet again, Homer (voice of Dan Castellaneta) is determined to make "the boy" admire his father – until a magical singing janitor (voiced by guest star Hugh Jackman) changes everything the Simpson guys thought they knew, in *Poorhouse Rock*, the Season 33 (!) finale.

When Calls the Heart

8 pm on HALL

Season Finale

In the season finale *Rock, A Bye, Baby*, Elizabeth (Erin Krakow) frets about the status of her relationship with Lucas (Chris McNally), while Bill (Jack Wagner) helps Gowen (Martin Cummins) through the painful fallout of the mine explosion. Elsewhere, Rosemary and Lee (Pascale Hutton, Kavan Smith) receive some important news.

5 QUESTIONS with ...

Onscreen, Anthony Ippolito gazes down as he talks. It broadcasts hesitancy, yet you can see hints of brashness. It's perfect for young Al Pacino, portrayed by Ippolito in the 10-part Paramount+ series *The Offer* (new episodes Thursdays), about the making of *The Godfather*.

Ippolito, a native New Yorker with a slightly different accent from Pacino's, studied the Oscar winner's voice and mannerisms. He also listened to a mutual friend Pacino told about that period of his life.

"He was just like any other passionate theater kid who wasn't really working very much," Ippolito says of Pacino at the time. "He was very nervous about the whole situation with *The Godfather*, and he also recommended a novel, *Crime and Punishment*, by [Fyodor] Dostoyevsky that he was reading around that time." Ippolito, 22, read it to help get into Pacino's mindset.

Last seen in Netflix's *Grand Army*, Ippolito's TV debut came when he was still in diapers. His first word was "ball," and he loved playing baseball in the backyard with his dad. Neighbors noticed the toddler had quite an arm – at 2, his throw was logged at 35 mph! He could hit a ball out of the Little League field. He was not, of course, on a team, but when *Ripley's Believe It or Not!* visited the family, a local team of 10-year-olds played with him. The show also filmed him on the Mets' pitcher's mound. Here he answers our "5 Questions."

- Tell us about a time you were starstruck. I was starstruck working with Adam Sandler. I played young Adam Sandler when I was younger, in this movie he did with Kevin James called *Pixels*. I hesitated [when answering] because he's such a disarming presence, and he's so cool and grounded that I really wasn't that starstruck, but he's one of the people I guess you would be starstruck by. When I was filming that in Toronto, the tutor that I had on set had another job with the Toronto Blue Jays; like, tutor for their kids or something. And so he was friends with some of the Major League Baseball players. He brought me to the field, and I went to the dugout, and I was hanging out with the players before a game, and I was freaking out.
- 2. If you were on Jeopardy!, what categories would you run?
 Maybe Yankees from the early 2000s, philosophy and fishingrelated questions.
- If you could throw a dinner party with anyone from history, who's there? Beethoven, Leonardo da Vinci and Shakespeare.
- 4. What movies can you watch repeatedly? Borat, The Godfather.
- Mhat's next for you? Purple Hearts on Netflix. It's about this guy in the military who has to fake a marriage with this girl to pay off his drug dealer. I play the drug dealer. Unless something [else] comes up for work, my goal is to go back to school at least part time in the fall semester.

The 17th season of **America's Got Talent** returns to NBC on Tuesday, May 31 from 8 to 10 PM ET/PT, with a new set of aspiring performers looking to compete for the ultimate \$1 million prize. Executive producer Simon Cowell returns to the star-studded judging panel with Heidi Klum, Howie Mandel and Sofia Vergara. Terry Crews returns as host. This season promises to deliver some of the wildest acts to ever grace the AGT stage. Then, from 10 to 11 PM ET/PT that same night, NBC will premiere its new series, **Dancing with Myself.** Inspired by social media dance crazes, a group of everyday people will compete each week in a series of high-energy dance challenges designed and demonstrated by the show's celebrity creators Shakira, Nick Jonas, Liza Koshy and host Camille Kostek, which the contestants will then have to tackle. The studio audience will decide who is named the best dancer of the night, earning the cash prize.

The **HISTORY® Channel** will premiere its two-night television event **Theodore Roosevelt**, beginning Monday, May 30 at 8 PM ET/PT. Executive produced by Pulitzer Prize®-winning Presidential Historian Doris Kearns Goodwin, the 5-hour event is based upon Goodwin's New York Times bestseller, Leadership: In Turbulent Times and will provide a rich, panoramic portrait of the first modern President of the United States - Theodore Roosevelt, a champion of social justice, a passionate conservationist and the selfproclaimed "bull moose" who once delivered an 84-minute speech bleeding from the chest after being shot in a failed assassination attempt. It explores the breadth and depth of one of history's most interesting men-a cowboy, soldier, statesman, conservationist, adventurer, reformer, and author who suffered profound personal loss and became, at age 42, the youngest president of the United States.

Hallmark Channel will premiere its new movie Hidden Gems on Saturday, June 4 at 8 PM ET/PT, starring Hunter King and Beau Mirchoff. While prepping for her sister's wedding, Addie (King) loses her grandmother's ring in the waters of Hawaii. She hires dive instructor Jack (Mirchoff) to search for her lost treasure. They immediately clash with each other when Addie insists that she go on the pursuit with Jack. Once they come to an agreement, Jack ends up serving as Addie's tour guide to the island's hidden gems.

Series Finale

Well, we can't say series creator Dan Fogelman didn't warn us. Periodically he told journalists the time-hopping saga of the Pearson clan will span six seasons, which end tonight in a series finale that's bound to tug at the heartstrings. Milo Ventimiglia – who plays patriarch Jack Pearson – promises "It's truly, truly going to deliver."

Guardians' Ramirez on a tear in season's first month

It's a familiar story in sports: An athlete signs a huge contract, gets complacent and underperforms. But don't tell that to Jose Ramirez.

Since agreeing to a fiveyear, \$124 million contract extension in April, the Cleveland Guardians' threetime All-Star third baseman has been on an absolute tear in the season's first 11 games that has the team at the top of the American League Central standings and Ramirez leading the league in batting average (.469) and RBIs (20) and in the top five in home runs (four), on-base percentage (.479) and OPS (1.360). Granted, this is a small sample size but the numbers certainly aren't uncharacteristic of the 29-year-old Dominican

Clevelanders always knew that they had a superstar in their midst but his torrid start to 2022 is making all of baseball sit up and take notice. His prowess was most definitively on display in an April 20 doubleheader against the Chicago White Sox, when his grand slam homer and five RBIs paved the way for a Guardians sweep of their AL Central rivals.

Since becoming a regular in 2016, Ramirez has performed at a very high level, averaging 26 homers and 83 RBIs per year with on-base figures usually in the mid-to-high .300s and an OPS generally north of .900. He's a legitimate superstar, one that the small market Guardians thought of highly enough to open up their vaults and compensate accordingly.

Ramirez and the Guardians can be seen in action Saturday, May 28, when they continue a three-game road series against the division rival Detroit Tigers in a game airing on FS1.

THE WEEK IN SOAPS

In Memoriam: "Guiding Light" And "One Life To Live" Star Jerry VerDorn Dead At 72 By Michael Maloney

Jerry verDorn, loved by soap opera fans as Ross Marler on *Guiding Light* and Clint Buchanan on *One Life to Live*, died on May 1 after a battle with cancer. He was 72.

Born on Nov. 23, 1949, in Sioux Falls, South Dakota, verDorn attended Minnesota State University Moorhead, where he planned to be an English teacher. Drawn to acting, he spent years in summer theater and studied in London before moving to New York City, where he was cast as GL's Ross in 1979.

Ross, an attorney, defended

Roger Thorpe (the late Michael Zaslow) in a groundbreaking marital rape storyline. After the verdict, Ross stayed in Springfield, becoming one of the show's most memorable characters, and was paired with numerous leading ladies. Starting in 1995, the actor won two consecutive Daytime Emmys for Outstanding Supporting Actor in a Drama Series for playing Ross.

"How could I have been so lucky on my very first day on *Guiding Light* in 1980 to have had Jerry verDorn as my scene partner?" shares

Maeve Kinkead (Vanessa). "There is no possible answer, at least no possible way for me to adequately convey his actor's intelligence and generosity on that day, or the steadying effect of his confident presence. Certainly, no way to describe the effect of those blue eyes and their mischievous glint!

"Jerry could do anything that was asked of him as an actor — comedic scenes, intensely emotional ones, the hard work of essential and quiet support," Kinkead adds. "And oh, the smarts and professionalism that he brought to the preparation and performance of those mammoth-paged courtroom dramas that, as Springfield's lawyer, he often had to shoulder.

"But beyond that, he understood just what makes for good daytime drama and what kind of friendships – day in, day out – help sustain an acting company. He could have been a fine producer, a fine writer. But just as he was, in all his aspects, he was the linchpin for many years for *GL*. We respected him greatly, and many of us loved him. It is very, very hard to say goodbye."

"Jerry was the anchor of *Guiding Light*," says Grant Aleksander (Phillip). "His kindness and generosity to everyone on both sides of the camera regardless of their relative importance set the tone for the rest of us. If you had a problem, his door was always open. His professionalism, decency and talent made the show and everyone he worked with better.

"In a recent email, he reiterated to me that he'd been playing with house money for a long time," Aleksander adds. "He got to see his sons grow up and have children of their own, his greatest wish when he was diagnosed so many years ago. With his usual good humor, he closed the email saying, 'And thanks to YouTube, we're all immortal'. Rest in peace, Jerry. You were the best of the best."

HOROSCOPES BY YASMIN BOLAND

John C. Reilly, a Taurus (born May 24), of "Winning Time: The Rise Of The Lakers Dynasty"

ARIES (March 21 - April 19) Being highly motivated often seems to go hand in hand with being highly agitated! Have you noticed? Many Aries people are filled with incredible firepower, and so they get things done. But they also often have a short fuse. This week, channel all the intense energies into motivation rather than anger!

TAURUS (April 20 - May 20)
There's a picture emerging in your horoscope this week. You need to do the work on yourself to clear away the fear and self-doubt.
Once you do that, your increased self-esteem could literally pay off financially. It's all about knowing you are worth something. Because you really are!

GEMINI (May 21 - June 20) There's a new moon this week in your sign. Therefore, it's time to start all over again in any part of your life you know you need to. It's also potentially a very sociable time, so get out there and see the people you love best. Avoid the ones who provoke you though!

CANCER (June 21 - July 22)
Here is a week-ahead plan based on your current celestial situation: Go hard at work without riding roughshod over anyone. Don't make a fuss professionally. Expect good things and charge at your goals. Balance all that with a spiritual practice that allows you to connect to your higher self.

LEO (July 23 - Aug. 22) Whatever else you do, make a wish on the new moon. Also note that this new moon in particular marks the start of a much more sociable cycle for you. Finally, if you're feeling the urge to travel but you can't get away just yet, book something now. Adventure calls!

VIRGO (Aug. 23 - Sept. 22) This week's new moon triggers your career and ambitions. The skies are urging you to go for it professionally. Make a plan about where you'd like to be in your work in 12 months' time and how to achieve it. Include your financial aims, too. There's magic in this exercise.

LIBRA (Sept. 23 - Oct. 22)
Hopefully your love life is on fire in a really good way. The planet of sex and drive, Mars, is meeting the amplification planet Jupiter, in your love zone. If there's someone you have your eye on, this could provide the celestial push you need to just go for it.

SCORPIO (Oct. 23 - Nov. 21) Every now and then, the universe sends you a kick to make sure you're staying on track. With your life so full of potential right now but also so volatile, you need some kind of methodical process that allows you to get everything done. Put that in place this week.

SAGITTARIUS (Nov. 22 - Dec. 21) The new moon this week is in your love zone, so it's a sign from the heavens to pay attention to your most important relationships. Which of those needs a bit of TLC or excitement? Make sure you attend to them now. Overall, the skies are urging you to have fun and romance.

CAPRICORN (Dec. 22 - Jan. 19) How the week pans out for you depends a lot on your mood and temper. There could be some really fun times for you at home with family but there also could be some arguments. Your best bet is to institute a daily spiritual practice that will keep your emotions level.

AQUARIUS (Jan. 20 - Feb. 18) There are some super fiery energies around you this week. Mars/ Jupiter are meeting in your communications zone. It will be all too easy for you to completely lose your cool and say things you'll regret later. Remember, as Confucius said, "when anger rises, think of the consequences."

PISCES (Feb. 19 - March 20) The first major astro-influence this week pertains to home and family. A new cycle is beginning in both these parts of your life. Getting back in touch with family you couldn't during the peaks of the pandemic would be an ideal use of the energies. Also, a new financial cycle starts.

ASK MATT

WILL ANY DC HEROES BE LEFT ON THE CW?

@TVGMMattRoush

Question: With the cancellation of *DC's Legends* of *Tomorrow* and *Batwoman*, does that mean that Greg Berlanti's reign as Supreme Overlord of the CW is on the decline? – *Brian*

Matt Roush: I guess that's one way to look at it, although it still sometimes seems like every other show out there comes from Greg Berlanti's amazingly prolific production company (You and The Flight Attendant among those that reveal a diversity of products beyond comicbook adaptations and The CW). I have long wondered when the tipping point would come when a network airs so many of the same sorts of shows, and all it took was a rumored impending sale of the network and a mega-merger swallowing its production company (Warner Bros. Discovery) to halt the proliferation of DC shows on The CW. What really surprised me was that Legends wasn't given the chance for a proper sendoff after such a long run, but so long as the Arrowverse still has a foothold (though not as big a footprint) on The CW, we could still see some of these characters from time to time, and that could be an avenue for closure. The fallout from this merger will take some time to process, but it's also affecting what you'll see on the Turner networks (fewer scripted shows on TNT for sure), and hoping that HBO Max will come to the rescue is probably a pipe dream.

Fish Oil Fad Finished-What's Next?

Palm Beach anti-aging doctor reveals the awful truth about the number one nutritional deficiency in the U.S., and why fish oil can't fix it.

Americans left disappointed after flocking to fish oil supplements may finally have the real solution they've been looking for.

Wellness brands have aggressively pushed fish oil as a key health supplement in recent years, with proponents lauding its ability to support strong joints, brain function, and heart health. However, the supplement has also been at the center of contentious debate.

A study published by the American Heart Association examining the effects of fish oil medication on more than 13,000 people with heart complications found the supplement did not improve cardiovascular health for those at risk.

Dr. Al Sears, a Florida-based anti-aging specialist, says the popular wellness product is grossly deficient in the compound needed to provide measurable results.

"I wouldn't feed fish oil to my dog," he says. "It doesn't do what people think it does, and there is a much more effective and natural alternative."

According to Dr. Sears, there is indeed a wellness miracle found in the ocean – but it's not fish oil.

Fish Oil's Big Bluff

Fish oil is marketed to the public as a potent source of omega-3s – chemical compounds that support a variety of wellness responses. These claims range from optimal cognitive function, heart health maintenance, and even male fertility support.

Omega-3s come in two main forms – namely eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA). Scientists and medical professionals have long endorsed both as positive supplements for human health.

But while fish oil does indeed contain these compounds, studies have shown that it isn't the best way to deliver them. Some research even suggests that taking fish oil could be a net negative.

An international team of researchers examined the long-term impact of fish oil consumption in a study published in The Journal of Nutritional Biochemistry, and the results were chilling.

Using an animal model, the researchers linked the regular consumption of these dietary fats to liver damage. Study authors say the fish oils gave rise to a slew of alterations in the organ, eventually resulting in non-alcoholic steato-

hepatitis - or NASH.

Fish oil's reputation took another hit when British researchers tested another one of the supplement's popular selling points – its promise to reduce anxiety and depression.

Scientists from the University of East Anglia in the United Kingdom looked at 31 trials of adults with and without depression and anxiety. More than 40,000 participants were tasked with either consuming more long-chain omega-3 fats from fish oils or maintain their usual intake.

The authors noted the doses had little to no effect in preventing depression or anxiety symptoms. Results were published in the British Journal of Psychiatry.

Solving the Problem with Omega-3s

With the fish oil façade beginning to whither, some may assume the problem is with omega-3s themselves. Dr. Sears warns this isn't the case.

"There are a lot of good reasons to take omega-3s," he said. "The problem is that fish oil isn't the best delivery system. That's why I've developed a new approach."

Most omega-3 supplements sold in stores today are made using long-chain fats taken from anchovies or other fish farmed in mass quantities.

Instead of fish oil, Dr. Sears' Omega Rejuvenol formula is made from DHA-rich oils taken from squid and krill. Unlike commercial fish oil, the omega-3 fats in squid and krill are stored as highly absorbable phospholipids – rather than the ethyl esters in fish.

Typical fish oil supplements contain around 180 mg of EPA and 120 mg of DHA. Omega Rejuvenol provides over 500 mg of DHA from squid oil alone.

DHA is the Real Savior You're Looking For

DHA has been shown to provide outstanding benefits when administered properly. Studies have also revealed that it functions differently than EPA, it's omega-3 counterpart.

Of course, fish oil and krill oil both contain DHA. However, both supplements are more EPA than DHA. On the other hand, squid oil - the primary ingredient in Omega Rejuvenol – contains more DHA than EPA.

"DHA is the real star here, so I

Fish oil has been a hugely popular health supplement for decades – and it's about to be replaced

wanted to give people something that recognizes that," Dr. Sears said

In a 34-week trial, scientists linked DHA to lower levels of genetic expression in four types of pro-inflammatory proteins, while EPA was linked to only one. DHA consumption was also correlated with lower white blood cell secretion in three types of pro-inflammatory proteins, while EPA again lowered just one type.

Researchers concluded that DHA was the more powerful of the omega-3 fatty acids.

A study published in Mayo Clinic Proceedings reviewed 40 clinical trials on DHA and EPA consumption. The authors concluded that more impressive heart health maintenance came from higher doses.

DHA has also shown promise as a powerful brain protector.

Researchers were floored when they saw the results of a randomized, double-blind, placebo-controlled study examining the effects of DHA on older adults with mild age-related cognitive decline. The research underscores the wellness potential DHA provides in higher doses.

In this study, participants took DHA supplements for six months before demonstrating improved memory and learning capabilities. The results were published in Alzheimer's & Dementia: The Journal of the Alzheimer's Association.

Despite DHA's clear benefits, the compound is woefully lacking in the typical American diet. Recent research revealed over 68% of adults and 95% of children in the United States do not consume the recommended levels of omega-3s, particularly DHA.

And while some say the answer to this would be to simply add fish to every meal, the high mercury content in these foods make this a risky option. And as research has shown, we can't rely on fish for a meaningful DHA boost.

Fortunately, there's an easier and much more effective option.

How to Get Omega Rejuvenol

Omega Rejuvenol isn't available in stores, but those interested in unlocking the true power of DHA supplementation don't have to wait for that to happen.

Instead, you can simply purchase Omega Rejuvenol directly from Dr. Sears.

"I didn't want to wait for Big Pharma to get with the program, so you shouldn't have to either,"

Dr. Sears adds that anyone who isn't completely satisfied with Omega Rejuvenol will be able entitled to a full refund.

"Just send me back the bottle and any unused product within 90 days of the purchase date, and I'll send you your money back," he said.

Everyone interested in Omega Rejuvenol should call within the next 48 hours to ensure they can receive as much product as they need. Many of the ingredients used in the formula are hard to acquire, so restocking can take some time.

Call 1-800-998-6681, and use promo code OMTW05 to secure your limited supply of Omega Rejuvenol. If the lines are busy, stay on the call – all will be answered.

New Prostate Discovery Helps Men Avoid "Extreme Bathroom Planning"

Men across the U.S. are praising a revolutionary prostate pill that's 1000% more absorbable. Now the visionary MD who designed it is pulling out all the stops to keep up with surging demand...

"Extreme bathroom planning."

Among the all-too-familiar, occasional problems like sleepless nights, frequent urination, latenight wake ups, a bladder that's never quite empty, and constant, extreme planning for rest stops and bathroom breaks.

These are the common signs of inconvenient urinary issues. But men nationwide are now reporting they've found help these occasional problems thanks to a major breakthrough in nutrient technology.

Prosta-Vive LS is the new prostate pill sweeping the nation. Men say they feel they're now having strong, complete, effortless urine flow they enjoyed in their 20s and 30s.

The key to its success is a new nutrient technology that makes the key ingredient 1000% more absorbable, according to a study by endocrinologists at Washington University in St. Louis.

Nick Summers is the spokesman for Primal Force Inc., the firm in Royal Palm Beach, Fla. that makes Prosta-Vive LS. He reports demand is surging due to word-of-mouth and social-media.

"We knew Prosta-Vive really worked to 'support healthy, stronger urine flow," Summers stated. "But no one could have predicted the tens of thousands of men looking for a truly supportive prostate pill."

NEW PROSTATE FORMULA DRAWS 5-STAR REVIEWS

It's not the first time Dr. Al Sears, the Florida-based MD who designed the breakthrough formula, has shaken up the status quo in men's health.

A nationally recognized men's health pioneer and the founder of the Sears Institute for Anti-Aging Medicine in Royal Palm Beach, Fla., Dr. Sears has been featured on ABC, CNN, and ESPN.

He's authored more than 500 books, reports, and scientific articles, many focusing on prostate issues that may affect virtually all men sooner or later.

"By age 60, I find about half of my male patients feel the need for prostate support," Dr. Sears explains. "By the time they reach age 80, it's over 90 percent."

No more extra "pit stops"

No more interrupted meetings

Men are free of bathroom woes and feel RELIEF

Prosta-Vive LS has reportedly made a life-changing difference for these men. One appreciative thank-you letter came from Jim R, a patient.

"I had immediate results," Jim R. wrote in his thank-you note. "I slept through the night without going to the bathroom.

"Last night was the most amazing of all," he added. "I slept for 10 hours without going to the toilet."

Results like these explain the flood of phone

calls the company's customer service department is handling from men who want to know how the new formula works...

PROSTATE PILL BACKED BY CLINICAL RESULTS

Prosta-Vive LS's extraordinary success is being attributed to advanced innovations in nutrient technology.

Most prostate pills rely on either outdated saw palmetto ... or the prostate-soothing compound Beta-Sitosterol.

But Dr. Sears cites growing evidence that saw palmetto and Beta-Sitosterol work much better together than either does on its own.

In fact, a recent clinical trial involving 66 men taking a combination of saw palmetto and Beta-Sitosterol reported "significant" improvement across the board.

Among the results: Fewer of those occasional late-night wake ups, a stronger stream, less starting and stopping, and complete emptying of the bladder.

That's why Prosta-Vive LS includes both saw palmetto and Beta-Sitosterol, to ensure men get the extra prostate support they need. Frustrated men say it's giving them tremendous support.

But there's another key reason Prosta-Vive LS is helping men get back control in the bathroom.

YOUR PROSTATE IS HUNGRY FOR HEALTHY FAT

The other key innovation in Prosta-Vive LS is its addition of healthy omega-3 fatty acids.

"It turns out what's good for your heart is also good for your prostate," says Dr. Sears. "That's why I put hearthealthy omega-3s in a prostate pill."

Researchers have long known Beta-Sitosterol has a great potential to support healthy prostate function.

But Beta-Sitosterols are "hydro-phobic" -- they don't mix well with water. And that can make them much harder for the body to absorb.

That's where longchain omega-3s come in. The latest research shows they boost Beta-Sitosterol absorption by 1000%.

Dr. Sears explains, "Most people only get trace amounts of Beta-Sitosterol because it can be hard to absorb. In this respect, the long-chain fatty acids in Prosta-Vive LS are a real game-changer. They supercharge the absorption."

This improved absorption is proving to be a revolutionary advance. Prosta-Vive LS is changing men's lives, quickly becoming the No. 1 support supplement for supporting men's prostate health nationwide.

Now, grateful men are calling almost every day to thank Prosta-Vive LS for supporting a renewed sense of empowerment over their own lives.

One patient, Ari L., wrote, "I used to get up on occasion at night to go to the bathroom. Now I only get up once... and I feel it has supported my prostate, keeping my PSA levels in the normal range."

Patients report they have more energy, sleep better, and no longer feel embarrassed by that occasional sudden need to use the restroom.

Thanks to Prosta-Vive LS, thousands of men feel more confident about their urinary health and are no longer being held hostage to pee problems and feel more confident about their urinary health.

They say they're getting great sleep and finally feel back in charge of their own lives.

HOW TO GET PROSTA-VIVE LS

To secure a supply of Prosta-Vive LS, men need to contact the Sears Health Hotline directly at 1-800-216-0595, within the next 48 hours.

"It's not available in drug stores yet," says Dr. Sears. "The Hotline allows us to ship directly to the customer and we're racing to keep up with demand."

You don't need a prescription, and those who call in the first 24-hour window qualify for a significant discount. Use Promo Code PSTW01 when you call in.

Gift Her the Wonder of the Ocean

The famed "Sea of Stars" beach in the Maldives has a reason for its renown: the unearthly blue coloring of the bioluminescent plankton that washes up on the sand at night, creating a natural light show to rival the aurora borealis.

When this happens, itt looks like the shore has exploded into a million flecks and swirls of blue and green, an entire galtaxy of stars flung to Earth. The only stone that has the look of this impressive display of nature is abalone. That's why we've crafted the Galaxy of the Sea Collection, a mesmerizing pendant and earring set designed to take her breath away every time she wears it.

Made up of stunning blue-green abalone, this is a swirling galaxy of natural shell set in intricate Balinese .925 sterling silver filigree. Abalone is fantastically individual, with no two shells looking exactly the same. Abalone mollusks grow by feeding on different varieties of seaweed, which create different colors in their shells. As a result, abalone changes color every time it's viewed in a different light, revealing many hues, including turquoise, peacock green and rose pink. This "opal of the sea" has been worn as jewelry for centuries; its style never fades.

Similar abalone collections can set you back hundreds of dollars, but because of our connections with Balinese artisans, we can offer this to you for a fraction of the price. Act now: This collection is already one of this year's best sellers. Of the 1,238 we originally had in stock, there are only 443 left. If you receive the Galaxy of the Sea Collection and are unimpressed, you can take advantage of our money-back guarantee. That's how confident we are that you'll love this jewelry.
